WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

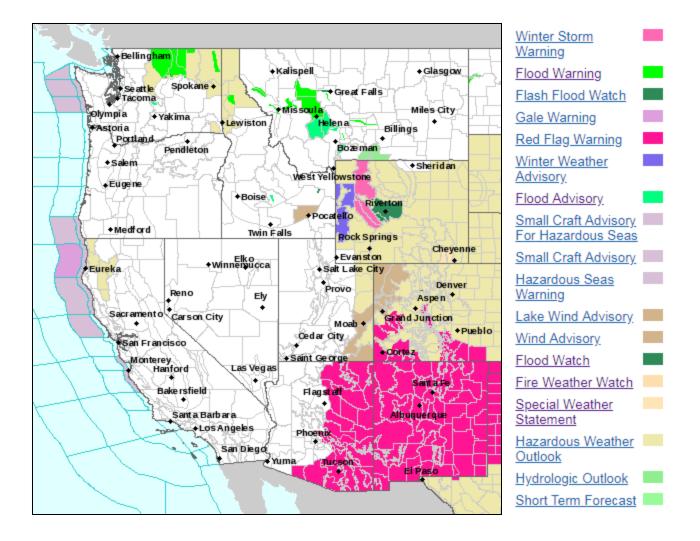

Mild temperatures continue for the next week with breezy north winds today. High pressure over the eastern Pacific will continue to build, while a thermal trough develops over interior California. Dry and sunny weather will continue into Sunday. Thunderstorms will be possible over the interior mountains during the upcoming week.

SOUTHERN CALIFORNIA

Low pressure centered over the Great Basin will move through early next week. This will keep a healthy dose of marine clouds along and west of the mountains, onshore flow, and below average temperatures. By mid next week, another low pressure system will arrive off the Pacific, to reinforce the moist and cool conditions over Southern California. Wednesday looks to be the warmest day of the week, then cooler into next weekend with a chance of more drizzle Thursday night. The combination of low pressure aloft and the occasional coastal eddy, will favor a seasonally deep marine layer with more persistent clouds at times and cool days through next week.

WEATHER MAP

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

e 2018-LAW-46688, 05/11/18, 0657 hours: The Air Force Rescue Coordination Center (AFRCC) advised of a possible ALNOT involving a Beechcraft Model 76, Tail# N803FC, with two souls on board that were scheduled to fly on 05/10/18, from Santee to Victorville and return to Gillespie Field in San Diego County. AFRCC advised ramp checks had been conducted with negative results. At 0723 hours the Cal OES Law Enforcement Duty Officer (LDO) requested Civil Air Patrol (CAP) be activated and AFRCC opened mission #18M0289A. At 0756 hours, LDO spoke to San Diego County Sheriff's Department (SDSD), who confirmed they were assisting CAL FIRE with a fire that was believed to be from a small plane crash that occurred last night in the area of Vulcan Mountain. Based on the last known position of the ALNOT, it is suspected this may be the same plane which crashed last night. SDSD is on scene but cannot make access to the site for identification until the fire is stopped. LDO updated AFRCC. Update: 05/11/18, 1720 hours, SDSD advised ground teams made it to the suspected crash site but were unable to positively identify the plane or any victims due to the extensive fire damage. SDSD advised the site has been secured and will assist with Medical Examiner and NTSB investigators on 05/12/18. LDO updated AFRCC and requested CAP resources be released. Mission Ongoing.

Cal OES MISSION TASKING

Cal OES Missions

- 2018-IREOC-45244: Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene Long-term assignment)
- 2017-SOC-44098: CalRecycle Debris Management Team in Ventura County (Coordinating)
- 2017-SOC-43821: DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
